Subject: Request to Review Draft Project Report (DPR) – Section 6H, Noise Abatement Decision Report.

In Response to your December 28, 2016 request to review the draft project report, we recommend to insert the following statement under section 6H, on page 7 of the DPR;
“An initial field noise study, conducted on September 16, 2016, found no significant traffic noise impact shall result from the proposed project as described in this project report. As such, no noise abatement is needed”.

Should you have any question, you may reach me at 657-328-6138.
